

Installation Instructions

■ Introduction

Thank you for purchasing Setting/monitoring tools for the C Controller module (SW4PVC-CCPU-E).

This document explains how to install and uninstall. Please read carefully before installing the product to your personal computer.

Installation

Install Setting/monitoring tools for the C Controller module to the personal computer.

■ Confirm before installation

- Log on to the personal computer as a user having the "Administrator" (computer administration) privilege.
- Close all the applications running under Microsoft® Windows® Operating System before installation. If the product is installed while other applications are running, it may not operate normally.

1. Insert the CD-ROM to the CD-ROM drive. Double click the "setup.exe" file on the CD-ROM.
2. Following the on-screen instructions, select or enter the necessary information.

Point

For precautions on installation, refer to Setting/Monitoring Tools for the C Controller Module Operating Manual.

■ Operating Environment
